Bully received positive reviews for its narrative and gameplay; reviewers noted similarities to Grand Theft Auto III and The Simpsons: Hit & Run. Amazing Spider-Man 2 Apk Mod JP Dokkan Battle Apk Mod Sword Of Chaos Apk Mod The player controls James "Jimmy" Hopkins, a 15-year-old expelled from every school he has previously attended. He is dropped off at Bullworth Academy by his newly remarried mother and her new husband, where he initially finds himself at the bottom of the school's hierarchy. Throughout the game, Jimmy rises to the top of the social ladder, overcoming bullies and other enemies along the way. This includes other groups such as the preppies, jocks, nerds and greasers. However, as Jimmy becomes more popular and confident, he also attracts enemies among those he defeats. The game also contains occasional mini-games that help improve Jimmy's abilities or replenish his health. Bully involves schoolyard fights that are initiated by taunting nearby students into fighting. Jimmy can also use weapons such as slingshots, firecrackers and bags of marbles to attack other students. The game features time-sensitive missions; if a mission is failed because time runs out, it can usually be repeated; but if a mission is failed due to Jimmy being knocked unconscious or expelled from school, it must be started over again from scratch.
